C1

Work experience

Order Packaging

From February 2024 to August 2024 Transalliance Terville, France
Packaging of small and big tractor pieces

Presenter & IT Assistant

2023 Médiathèque Puzzle Thionville

Full Stack Web Developer Internship

2022 Business & Décisions Schengen - Luxembourg
Stack Angular - Java - Jhipster - VueJS

Participate in the development of a web application for inventory management and a contact form.

- Review the project specifications and install the necessary tools.
- Learn the JHipster framework, which I am discovering for the first time.
- Develop and improve the application's forms.
- Manage admin and user permissions at the API level.
- Ensure proper functionality through testing.
- Use GitLab for version control.
- Improve the visual appearance of both projects.

Développeur Web

2021 Mass' Automatic Fontoy
Stack Ionic - TypeScript - Android Studio

Development of a stock management application using Ionic.

- Conduct research and learn to use the necessary technologies for the project.
- Develop CRUD operations for a mobile stock management application.
- Evaluate the proper functioning of the mobile app on various devices through testing.
- Organize regular meetings with team members.
- Manage the company's websites by making updates and adding new products.
